

TAMBORINE MOUNTAIN PROGRESS ASSOCIATION INC.

"Protecting the quality of living on Tamborine Mountain"

**Mr Tony Magner
Director Regional Services
Scenic Rim Regional Council
PO Box 25
Beaudesert Qld. 4285.**

10th July 2014.

Dear Sir,

It has recently been brought to our attention that the Scenic Rim Regional Council is now actively managing all groundwater extractors' permits and compliance issues.

We have long been concerned that some extraction operators are refusing to act in compliance with conditions set by council in their respective approvals.

We respectfully seek your assistance in establishing the bona-fides of all operators in this realm.

The issues are manifold. Depletion of resources. Amenity of residents. Road safety in the operation of the haul vehicles. Council expenditures to repair accelerated damage to roads. Protection of safety issues at the school precincts through which the haul vehicles travel.

We look forward to your advices in these matters.

Yours faithfully,

**Stuart Wright
